The Collaboration

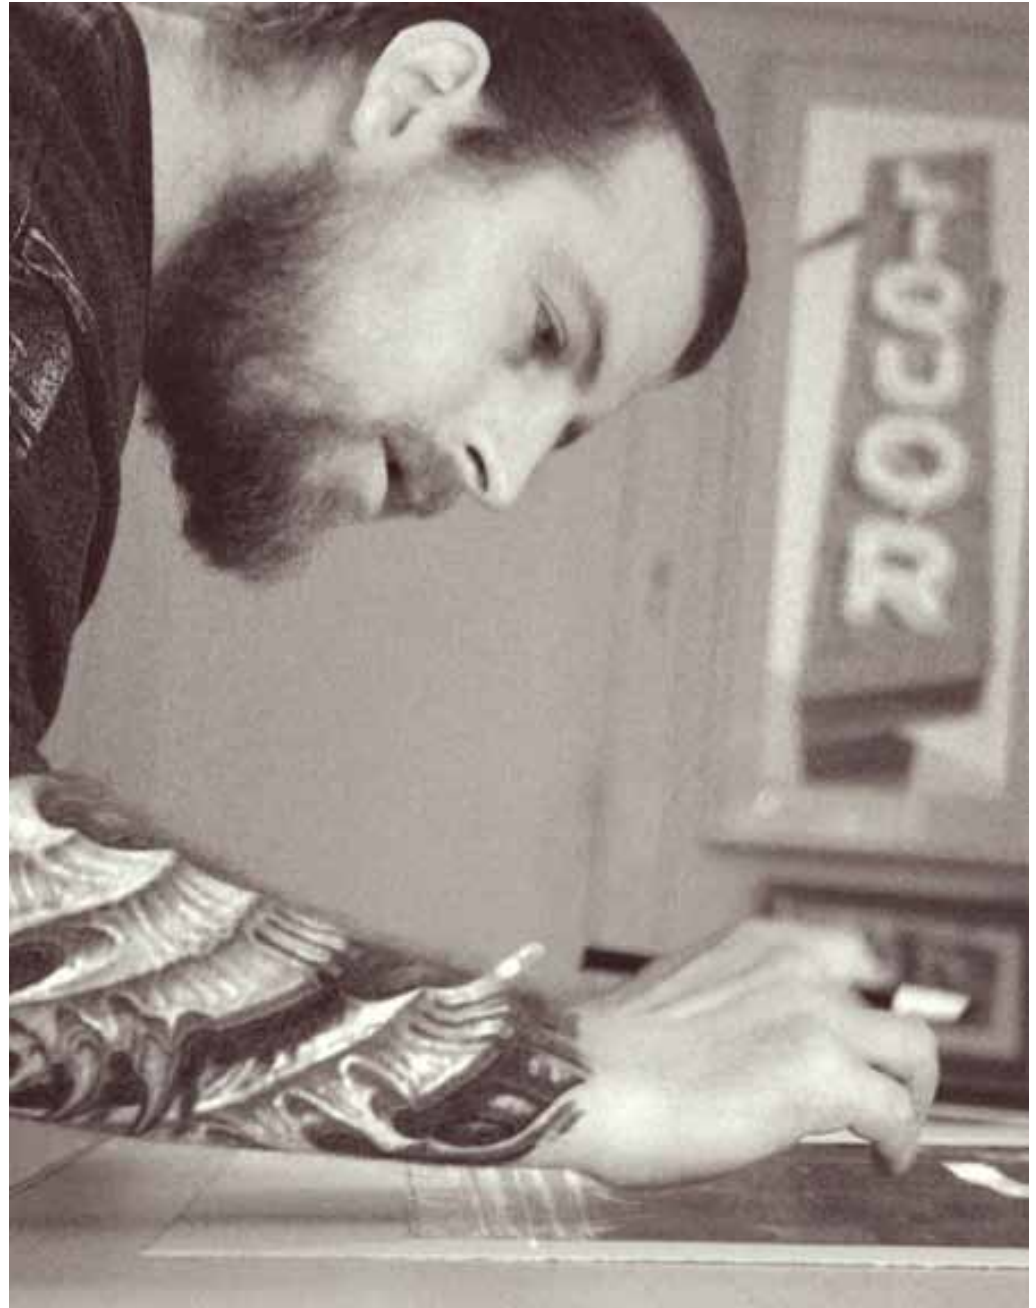

“RIPPED TAGS”

“As we see some of the trends of the Graffiti Art Movement expanding into pop culture, it was inevitable that elements of the movements aesthetic and design would collide with the fashion world. In my vision of a perfect universe graffiti would be plastered on everything, so when I was asked, I knew exactly where to start.”
-SABER

LLC x SABER is the second collection in our *Artist Series*, the result of a unique collaboration between LLC and world-renowned graffiti artist, **SABER**. This partnership has created limited edition Carry-All Totes that stitch Saber's graffiti art -- from the “Ripped Tags” series shown in MOCA's “Art In The Streets” exhibition -- onto the body of LLC's high quality, hand crafted materials and classic totes.

We wanted to retain the energy, gesture and bravado of Saber's tradition in street art with each and every bag. This could only be accomplished by using a labor-intensive method of hand assembly that tailored each as a unique object of art in and of itself. This capsule collection consists of 40 individual paintings. Each bag is signed and numbered by the artist.

All of the materials and fittings have been personally selected and customized by Rosenstein—from the Italian calfskin handles and straps, to the polished brass buckles and zippered inside pockets. Each bag is hand stitched and assembled individually.

LLC x SABER
“RIPPED TAG” TOTES

Edition of 7

About the Company

Luxury Loves Company is an artisan design firm creating limited edition fashion in collaboration with artists.

LLC was founded in Los Angeles in 2008 by Diane Rosenstein - Curator, Art Consultant, and Interior Designer.

Our debut collection launched in F/W 2008. The line emerged from a series of radical statements created by the use of shocking graphics—such as an Andy Warholesque depiction of an infamous 1974 polaroid of kidnapped heiress Patty Hearst toting a gun. These images were hand-screened onto Men's and Women's tanks and shirt dresses made from luxurious organic and Turkish cottons.

The *Artist Series* began with the LLC S/S 2009 collection. Our first collaboration was with Los Angeles sculptor and photographer Farrah Karapetian (b. 1978). Karapetian created original photograms for our capsule collection of T-shirts bearing her constructed images of leaves, flowers, and floss.

This year, the series continues with LLC x SABER, as graffiti artist SABER creates 40 mixed-media "Ripped Tags" canvases for our bespoke collection of CarryAll Tote bags.
